## **Bagel Guillotine/Slicer**

This handy gadget will save time and prevent fingers from being cut. Made to exceptionally high standards, it is a safe and convenient way to slice bagels neatly in half.

The unique, patented design uses guillotine action to safely slice fresh bagels. The base section self-centres the bagel while the pointed stainless steel blade cuts the bagel in half as the user simply pushes it down. Isolating the blade from the user's fingers with acrylic guards is the secret of the Guillotine's success.

Available in black/chrome and white.
